Professional Summary

Frontend developer and B.Tech CSE student (2028) building responsive React and Next.js applications. Open-source contributor with experience in Git-based team workflows, plus hands-on exposure to Python and machine learning through an ML internship. Looking for a frontend or full-stack internship.

Technical Skills

Languages: JavaScript, Python, C, HTML5, CSS3
Web: React, Next.js, Tailwind CSS, Responsive Design
Tools: Git, GitHub, VS Code, Vercel, Web3 (basics)
AI/ML: Computer Vision, Pose Estimation, Data Annotation, Preprocessing, Speech Recognition
Other: Video Editing, Designing

Projects

TeachNest Decentralized P2P Learning Platform (Next.js, React, Web3)

- Developed a platform where users can directly teach and learn from each other without intermediaries.
- Designed and implemented the frontend using React and Next.js, focusing on intuitive UI and smooth user experience.
- Integrated Web3 concepts to enable a reward-based system for knowledge sharing.

CyberSafe Legal Website (HTML, CSS, JavaScript)

- Built a responsive website aimed at spreading awareness about cybersecurity and legal safety practices.
- Focused on clean layout, easy navigation, and accessibility for a wide range of users.

Voice Assistant (Python)

- Created a voice-controlled assistant capable of executing basic system commands using speech recognition.
- Implemented command processing logic to improve responsiveness and usability.

Voice Recognition System (Python, Machine Learning)

- Developed a machine learning model to recognize and classify voice inputs from audio datasets.
- Extracted audio features and trained the model to improve prediction accuracy.

Experience

ML Intern - Bowler Academy May 2026 – July 2026

- Worked on computer vision and machine learning models for cricket performance analysis.
- Assisted in data collection, preprocessing, and annotation of bowling videos for model training.
- Collaborated with the development team to test, evaluate, and optimize AI-driven sports analytics solutions.

Open Source Contributor - Winter of Code 5.0 Feb 2026 – Mar 2026

- Built and improved frontend components using React and Tailwind CSS in a remote collaborative environment.
- Worked with Git workflows including pull requests, code reviews, and resolving merge conflicts.
- Refactored UI components to improve reusability and maintain cleaner code structure.

Teaching Assistant - JK Lakshmipat University Aug 2025 – Nov 2025

- Assisted 40+ students in understanding Python concepts and improving logical thinking.
- Helped debug code and guided students during practical lab sessions.

Freelancer Present

- Delivered video editing and basic web development projects for clients.
- Maintained clear communication and ensured timely, quality delivery.

Hackathon Participant - LNMHacks 8.0 Jan 2026

- Collaborated with a team to build solutions under time constraints.
- Applied problem-solving and rapid development skills in a competitive environment.

Education

JK Lakshmipat University, Jaipur Jul 2024 – Jul 2028
B.Tech in Computer Science Engineering
CGPA: 7.7

Certifications

- AI Capabilities and Limitations
- Build Real World AI Applications with Gemini and Imagen
- Programming for Everybody (Python)
- Web Development Bootcamp
- Prompt Design in Vertex AI

Leadership & Activities

- Co-Chair — Smart Technology Club, JKLU
- Coordinator — HackJKLU v4.0
- Core Member — HackJKLU v5.0 Social Media
- Event Coordinator — Sabrang 2024
- Technical Team Member — Sabrang 2024

Soft Skills

Problem Solving, Leadership, Teamwork, Communication, Adaptive Learning
